Recovery / Subrogation

Crucial to any successful claim management is the prompt recognition of recovery opportunities that serve to lower loss and expense ratios. RMG Consulting has the expertise to review claims arising from all disciplines and determine if opportunities for such recoveries are being overlooked. After the identification process, we determine if the execution and follow through of the critical recovery process is fully realized. These might include the areas of third party subrogation, salvage, deductibles, Second Injury Funds, reinsurance recoverables, or heretofore unidentified or unrecognized areas of contribution. RMG Consulting tailors each recovery review to the client's individual needs, and our efforts result in significant improvement to bottom line results.
